

Enabling AI and Machine Learning to Address Transportation Challenges Webinar

Thursday, June 11, 2026

Seattle **9:00 - 10:30 AM PT**

Norway **18:00 - 19:30 CEST**

A panel discussion exploring how artificial intelligence and machine learning are transforming transportation systems, featuring perspectives from the Washington State Department of Transportation, University of Washington and the Norwegian Public Roads Administration. Speakers will discuss emerging technologies, real-world applications, and international collaboration aimed at improving transportation safety, efficiency, infrastructure management, and mobility innovation.

Join online via Zoom!
